What's What

WITH CCS TEAM RIDER JERRY HSU

What's the last cell phone pic you took?
Some weird graffiti about a 7 series BMW being the same as a Rolls Royce.

What makes a blonde better?
You're dumber.

What's a habit you can't kick?
Never tried kicking anything.

What was the first pro you ever met?
Salman Agah. He did an Ollie on my friend's board and it was the coolest thing I'd ever seen.

What's one trick you've done you're happy to never do again?
I did a Willy Grind once and it felt awful.

What's the best part of the HSU 2?
They get you into heaven.

What's your favorite movie theatre snack?
Nachos.

What's the most random thing you ever signed?
Pregnant stomach or a Chihuahua.

What's your worst slam?
The concussions were all pretty lame.

What enjoi teammate is most likely to steal your girlfriend?
Nestor. That hair.

What's the biggest waste of money?
Do you ever think about what happens to hotel soap after you use it once?

What's next?
Look at my phone for a while. Maybe go outside.

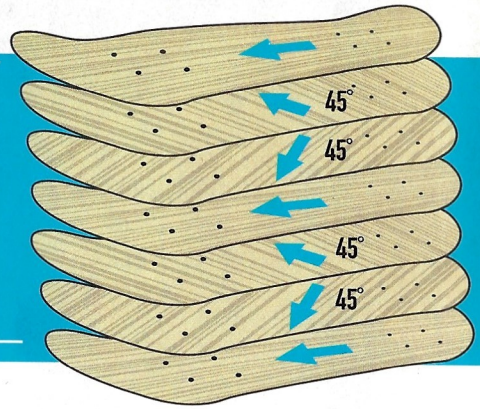
HI-TECH DECKS

X-BAND® LIGHTER-STRONGER DECK CONSTRUCTION
BY ALIEN WORKSHOP

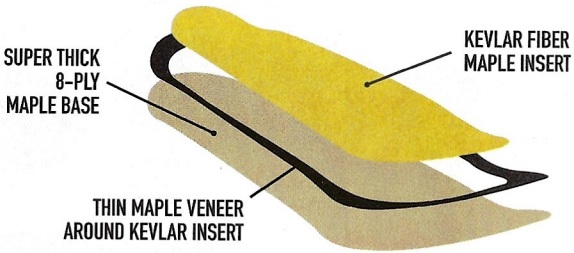
MULTIPLE ANGLE 7-PLY LAMINATION



Utilizing the natural strength of wood grain, X-Band decks feature cross plys with grain running at opposing 45-degree angles. The strength obtained from this unconventional grain configuration allows for a thinner and lighter deck. The result is an increased overall rigidity and pop.

PRO 2 TECHNOLOGY
SPRING LOADED POP

FLIP ZERO 8 CREATURE



P2 technology includes an oval-shaped (Kevlar) fiber reinforced maple veneer, which enhances the natural performance and pop of its supporting six, thin veneers of maple. The oval shape spreads stresses and loads throughout the entire deck, versus around only the areas closest to the trucks. P2 construction provides exceptional added resilience to the deck creating a "Spring Loaded Pop" effect. P2 decks are thinner and lighter than traditional 7-ply wood skateboards.

Featherlight HELIUM BY ELEMENT

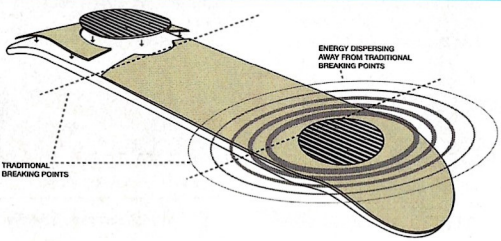
Helium boards take skateboard construction to a whole new level. Helium features a patented air-frame chamber that runs the length of the board. The air-frame adds strength while drastically decreasing weight. Each of five air-frame chambers within the board is hollowed, meaning less wood is used, resulting in the lightest and strongest skateboard made.

HELIUM VENEER LAY-UP

Helium boards are characterized by a unique black, red, 2 natural, red, and black 6-ply lay-up. This way you can always tell a helium board from the outside.

PATENTED AIR FRAME CHAMBERS

IMPACT
almost



Almost Impact Technology creates a new form of rigidity, using carbon fiber reinforced discs, without compromising the natural organic feel of a standard 7-ply. This extends the life of the deck dramatically while maintaining ultimate pop, lasting twice as long as a normal deck.

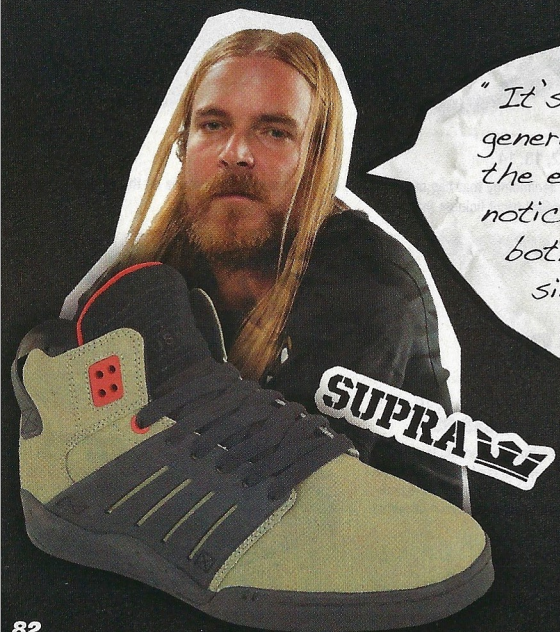
WHAT I ROCK

"I wanted a shoe that had a different look while remaining a skate shoe. It's hard to make a good looker while not just doing a repanel of an old shoe. I made a super light, but stable, fast looking shoe."

CHRIS COLE
ON THE COLE S

11-04697 **$64.99** pg.80

"It's very different looking in general. It takes a little from the earlier Skytops. But most noticeably, it is lower than both and has a unique rubber side panel and cupsole instead of Vulc."



CHAD MUSKA
ON THE SKYTOP 3

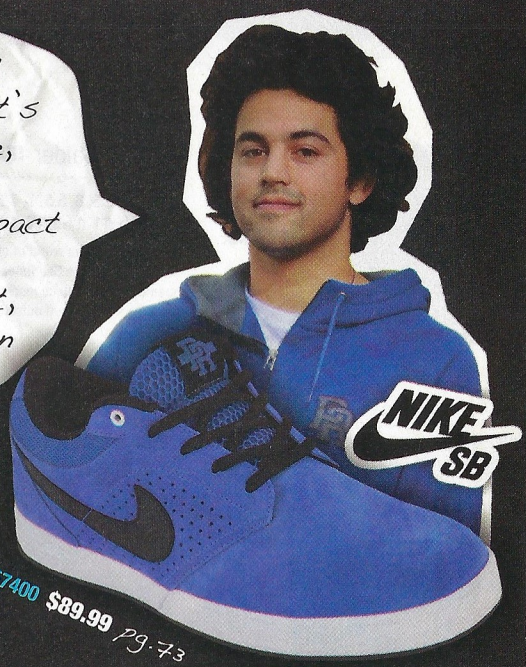
READ WHAT THE PROS HAVE TO SAY ABOUT THEIR SHOES!

"Lunarlon is designed for running shoes, and it's super light, super durable, and super cushioning. Skateboarding is a high impact sport, and if runners need that kind of foot support, skateboarders need it ten times more."



PAUL RODRIGUEZ
ON **THE P.ROD V**

What's What
with
AARON BIITTNER
What do you love about Salt Lake City?
What's not to love...the proximity to mountains, skateparks, rivers, golf courses and the airport makes it an ideal place to live.
What's it like wearing a prestigious DC Ring?
Pure motivation & inspiration to work hard & shred hard!
What album's currently on repeat?
Dert Floyd. "The Westside of the Moon".
What keeps you inspired?
Music, good homies and good times... and some nice pow.
What fellow pro do you ride with the most?
All my boys that ride at Park City & Snowbird ...pro or not, those guys rip.
What meal can you crush every single day?
Chicken curry and samosas.
What's the craziest thing you ever witnessed?
We randomly went skydiving this summer in New Zealand. Falling out of a plane from that high up is insane!!
What's the last text you sent?
Mtn Dell. 3:20 tee time on the Lake course.
What are 3 things you can't live without?
Riding pow, a good beer and good friends.
What's your favorite video part of all-time?
Best part is tough, but Absinthe Films' VIVID is one of the best movies of all time!
What's your last major purchase?
Flights for my dad and myself to Thailand to attend a wedding.
What celebrity would you date first?
Haha, yeah right.

IMPORTANT SAFETY INFORMATION FOLLOWS:
Skateboarding and snowboarding can be hazardous activities. The use of skateboard and snowboard equipment involves numerous risks of injury and death. Adverse terrain or weather conditions, poorly maintained equipment and the use of drugs or alcohol can increase these risks. ALWAYS use common sense when using a skateboard or snowboard!

The photographs in this catalog picture sponsored skateboarders and snowboarders. Only those with proper training and equipment should attempt the moves and stunts pictured. To minimize the chance of injury, stay within your abilities and wear appropriate safety equipment AT ALL TIMES. Always avoid wet conditions when on a skateboard. Always make sure all your hardware is secure before beginning to skateboard or snowboard. The equipment should always be properly inspected before each use and should never be used if any parts are worn, damaged, missing or loose.
